

REMARKS

In the Final Office Action mailed on October 31, 2006, the Examiner rejected claims 1-3, 6-8, 10-18 and 23-27 under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,067,108 to Yokote et al. in view of U.S. Patent No. 6,128,467 to Rege; rejected claim 4 under 35 U.S.C. 103(a) as being unpatentable over Yokote and Rege in view of U.S. Patent Publication No. 2005/0097619 to Haddad; rejected claim 5 under 35 U.S.C. 103(a) as being unpatentable over Yokote and Rege in view of U.S. Patent No. 5,881,245 to Thompson and rejected claim 9 under 35 U.S.C. 103(a) as being unpatentable over Yokote and Rege in view of U.S. Patent No. 5,815,146 to Youden.

In response, Applicant has cancelled claims 1-18 and 23-27 and added new claims 28-32. No new matter has been added.

Independent claim 28 is distinguishable over Rege in that claim 28 recites a semiconductor memory array. In contrast, Rege shows disk memory in FIG. 2.

In addition, claims 28-32 recite details of a “stream server processor,” a “stream server module,” and a “protocol stream encoder/decoder” that are not taught or suggested by either Yokote or Rege.

For at least these reasons, new claims 28-32 are allowable over the cited art.

CONCLUSION

No fees beyond the fees for the RCE and a Petition for a Two Month Extension of time are due for this response. However, the Office is authorized to charge any additional fees or underpayments of fees (including fees for petitions for extensions of time) under 37 C.F.R. 1.16 and 1.17 to account number 502117. Any overpayments should be credited to the same account.

Applicant respectfully requests reconsideration of the present application, withdrawal of the objections rejections made in the last Office Action and the issuance of a Notice of Allowance. The Applicant's representative can be reached at the below telephone number if the Examiner has any questions.

Respectfully submitted,

Jeffrey Binder et al.
